Occupation of WUENSDORF.

3. Rumors of mid-March 1951 among the population of WUENSDORF that troops from KOENIGSBERG would move into the reconditioned barracks installations at WUENSDORF have not been verified. * About 500 troops and from 200 to 300 Soviet women moved into the Panzer Schule, WUENSDORF, on 24 March 1951, but moved out again and left southwards on 31 March 1951. Since Army General V.Y. Chuikov allegedly stayed in WUENSDORF at that time, and since numerous vehicle numbers of various series of the GOFG were observed there during this period, it appears possible that several elements of the Hq GCEG may have been at WUENSDORF temporarily at the end of March 1951. The reasons for such action could not be determined. There [REDACTED] that other barracks installations there were prepared for occupation. During the period 24 - 31 March, the Wuenster installations were protected by numerous heavy AA batteries of the unidentified AAA Div of the Third Gds Mecz Army. 25X1C

Field Exercises and Training.

4. Division Training.

The final inspections ending the recruit training program, which are believed to have been held at all posts in the Soviet Zone of Germany in the middle of February 1951, were followed by a period of unit training until the beginning of April 1951, during which virtually all units held field exercises of from one to three days at battalion or regimental level near their posts or rotated to troop training grounds for advanced combat practice firing. [REDACTED] on rail movements and other [REDACTED], training was held in all training area known in the Soviet Zone of Germany. In the middle of April 1951, the units from virtually all military posts began their movement to the troop training grounds for summer training, about two or three weeks ahead of the corresponding movement in 1950. One of the reasons for the early start of the summer training this year was probably the fact that, contrary to the situation in the spring of 1950, the units in the Soviet Zone of Germany did not receive recruits, but only a small number of specialists this spring and thus attained a standard of training which permitted an early start of the summer training. [REDACTED] on field exercises and training received between the beginning of February and 1 May 1951 indicate the following:

a. Eighth Guards Army Area:

(1) OHRDRUF:

Elements of the 20th Gds Mecz Div from ZEITZ and of the 43d (Gds) Gun Arty Brig from ALTENBURG are believed to have been at OHRDRUF from late February to mid-March 1951. Numerous units were at the OHRDRUF troop training grounds in early April 1951, but the reports on them did not permit any conclusions as to their identity. However, [REDACTED] on rail shipments in Thuringia indicated that component units of the 20th Gds Mecz Div and, possibly headquarters units of the XXVIII Gds Mtz Rifle Corps, went to OHRDRUF at the beginning of April 1951. In addition,

indicated that the following units were at OHRDRUF: in late February and early March, headquarters units of the XXIX Gds Mtz Rifle Corps and elements of the 38th AT Arty Brig, the 21st Gds Mecz Div, and the 57th Gds Mtz Rifle Div; in the middle of March, units of the 13th AAA Div, headquarters units of the XXVIII Gds Mtz Rifle Corps, including elements of the unidentified AT artillery brigade from the GERA-MERSEBURG area, and small components of the army's four divisions; at the end of March, component units of the 20th Gds Mecz Div, the army's two motorized rifle divisions, and the IVD Regt from LEIPZIG.

(2) KINDEL:

Component units of the 69th Gds Mecz Regt of the 21st Gds Mecz Div from HALLE are believed to have trained at KINDEL in the middle of March 1951. Units of this division were probably on two trains which passed through ERFURT on 6 April 1951, coming from HALLE and proceeding westwards toward KINDEL. Major advance details from HALLE, GOTHA, and the direction of ERFURT arrived at KINDEL between 10 and 16 April 1951. A unit of the 57th Gds Mtz Rifle Div was on one of three troop trains seen on the ERFURT-EISENACH railroad line on 22 April 1951. About 80 tanks and SP guns were observed moving from EISENACH toward KINDEL on 23 April 1951. As early as the end of March, [redacted] of the 57th Gds Mtz Rifle Div in the KINDEL area.

(3) BAD KOESEN:

Component units of the 57th Gds Mtz Rifle Div from NAUMBURG and WEISSENFELS practiced in the BAD KOESEN area during the first half of March 1951, probably together with small units of the 21st Gds Mecz Div, and the engineer battalion of the XXIX Gds Mtz Rifle Corps.

b. Third Shock Army Area:

Intensive traffic of motor convoys between STENDAL and the northern portion of Letzling Heath in mid-March 1951 indicated that elements of the 207th Mtz Rifle Div were engaged in small-scale field exercises there. Vehicles of the 20th and 21st Gds Mecz Divs, the 3rd Gds AAA Div, and the 136th Gds Hv Tank SP Regt of the Third Shock Army were seen at LETZLING HEATH during the second half of March 1951. A train carrying troops with tanks of the 21st Gds Mecz Div was seen en route from WOLMIRSTEDT toward MAGDEBURG on 24 March 1951. Several troop trains were [redacted] to have moved from SATZ-25X1C KORN to WOLMIRSTEDT and vice versa between [redacted] April 1951.

these trains [redacted] Fourth Gds Mecz Army. Component units of the 7th Gds Tank Div began arriving at HALDMSLEBEN on 14 April 1951. The movement was apparently not completed by 23 April 1951. The division had conducted its 1950 summer training at the WERDER-MARKLENDORF troop training grounds. But there were indications as early as the fall of 1950 that the division would not return to the JUETERBOG area in the spring of 1951. Component units of the 136th Gds Hv Tank SP Regt were loaded in BURG for shipment toward LETZLING HEATH on 18 and 19 April 1951. According to [redacted] the units of the 207th Mtz Rifle Div in STENDAL were allegedly to start moving to the southern portion of LETZLING HEATH in the middle of April 1951.

[redacted], three trains with tank troops moved from BRANDENBURG to WOLMIRSTEDT between 24 and 26 April 1951, and ten trains with tank troops from DOBERNITZ to WOLMIRSTEDT at the end of April 1951. The trains may have carried component units of the 10th Gds Tank Div. Therefore it appears that, should the 19th Gds Mecz Div stay in its permanent quarters at HILLERSLEBEN and MAGDEBURG, four divisions and headquarters units of the Third Shock Army would be concentrated in the LETZLING HEATH area. Such a concentration of troops would

deviate from Soviet practice during past years. It therefore seems necessary to pay special attention to this area during the forthcoming months in order to recognize early any measures which might surpass the level of routine summer training. According to 9th Mecz Div were at LETZLING HEATH in late February and early March 1951.

25X1C

c. First Guards Mechanized Army Area:

(1) KOENIGSERUECK:

Between 26 March and 12 April 1951, component units of the 8th Gds Mecz Div left SCHWEPNITZ for GRIMMA, CHEMNITZ and LEISNIG, and units of the 9th Tank Div for RIESA. It is therefore concluded that elements of the two divisions practiced at KOENIGSERUECK in the course of March. Units of all divisions of the army started moving to KOENIGSERUECK on 5 April. The movement was apparently still in progress on 20 April. The units came from BAUTZEN, DRESDEN, RIESA, OSCHATZ, GRIMMA, EILENBURG, LEIPZIG-HEITERBLICK, CHEMNITZ, and WURZEN.

(2) ZEITHAIN:

Camp ZEITHAIN has been occupied by troops since the beginning of February 1951. [REDACTED] 5X1C sources, the troops were components of the 9th Tank Div.

d. Second Guards Mechanized Army Area:

Small elements of the 1st Mecz Div practiced at WITTSTOCK from 22 March to 1 April 1951. Troops of the 18th Mecz Div began arriving in the area on 19 April 1951. The movement was probably not completed by 23 April. Confirmatory [REDACTED] were received from PARCHIM and LUDWIGSLUST, from where troops left for WITTSTOCK about 20 April. In addition to vehicles of the 18th Mecz Div, some vehicles of the 94th Gds Itz Rifle Div were observed in the WITTSTOCK area in April.

25X1C

e. Third Guards Mechanized Army Area:

(1) JUETERBOG and WERDER-MARKENDORF:

Small component units of the 25th Tank Div from ORANIEBURG and PRENZLAU, of the 12th Gds Tank Div from NEURUPPIN, of the 9th Mecz Div from COTTBUS, of the 10th Gds Tank Div from KRAMPNITZ, and of the unidentified AAA Div, possibly the 32d, from KUESTLIN practiced in the JUETERBOG area in March 1951. Elements of the 14th Gds Mecz Div conducted their routine training around JUETERBOG and in the area as far as the WERDER-MARKENDORF troop training grounds in March and the first half of April. Major advance parties of the 6th Gds Tank Div from WITTENBERG arrived in WERDER-MARKENDORF on 5 April to prepare Camp WERDER for billeting the respective units during the summer months. The units of the 6th Gds Tank Div started arriving on a series of trains on 14 April, the movements probably not having terminated by 20 April. Elements of the 91st Gds RL Regt of the Third Gds Mecz Army, which were seen leaving TREBBIN toward JUETERBOG on 2 April, possibly moved to WERDER-MARKENDORF. An AT artillery unit of the 14th Gds Mecz Div left JUETERBOG by rail for an undetermined destination on 29 March 1951. The headquarters units of the Third Gds Mecz Army left their ILLEGIBquarters [REDACTED] LUCKENWALDE on 15 April [REDACTED] possibly going to the WERDER-MARKENDORF troop training grounds.

Units of the 9th Mecz Div from LUEBBEN and COTTBUS began moving by rail to WEISSWASSER on 14 April. [redacted] training camp at WEISSWASSER confirm these movements. 25X1C

f. Fourth Guards Mechanized Army Area:

(1) TEMPLIN:

Some small tank components of the 25th Tank Div from PRENZLAU were engaged in advance combat practice firing in the TEMPLIN training area in and after the middle of February 1951. Vehicles of the 6th Gds Mecz Div, the 25th Tank Div, headquarters units of the Fourth Gds Mecz Army, including vehicles of the army's AAA Div, and some engineer vehicles of the 7th Gds Mecz Div were seen in the TEMPLIN-HAMMELSPRING-ZEHNDENICK area in late March and early April. These vehicles probably belong to advance parties. Elements of the 6th Gds Mecz Div from EBERSWALDE and BAD FREIENWALDE and those of the 25th Tank Div from all divisional posts began moving to the TEMPLIN area on 13 April. Not all of the units of the two divisions are believed to have left their posts by 20 April.

(2) LIEBEROSE:

Small units of the 7th Gds Mecz Div from FRANKFURT/Oder and FUERSTENWALDE trained at LIEBEROSE in February and March 1951. The entire division left its posts to start the summer training program on 12 April, the movement having not been completed by 25 April. Only about 2,000 troops with about 100 tanks and SP guns were at LIEBEROSE on 21 April.

5. Special Exercises.

- a. Elements of the nine AAA divisions stationed in the Soviet Zone of Germany moved to the WUSTROW AAA range at the end of February 1951. Units which were at the range on 10 March included elements of the 13th AAA Div from the Eighth Gds Army area; of the Third Gds Mecz Army's AAA division from KUMMERSDORF; of the 31st AAA Div from SCHOENWALDE; of the Fourth Gds Mecz Army's AAA division from EBERSWALDE; of the 2d Gds AAA Div from POTSDAM; and of the unidentified AAA Div, possibly the 32d, from FRANKFURT/Oder. Since AAA units from EBERSWALDE, BRANDENBURG and CHEMNITZ were loaded in late March 1951, from LUCKENWALDE in early April 1951, and from PARCHIM in mid-April 1951, it is believed that, in addition to the aforementioned AAA divisions, elements of the unidentified AAA Div, possibly the 6th Gds, from CHEMNITZ and of the two unidentified AAA units from BRANDENBURG and PARCHIM were at WUSTROW in April. A unit of the Fourth Gds Mecz Army's AAA division returned to its quarters in FUERSTENWALDE on 2 April 1951, possibly coming from WUSTROW. 25X1C
- 25X1C [redacted] elements of the 3d and 4th Gds AAA Divs and vehicles of the 94th Gds Itz Rifle Div were also at WUSTROW in mid-March 1951.

- b. Component units of the unidentified artillery division from POTSDAM, of the Third Shock Army's unidentified Gun Arty Brig, possibly the 44th, from MAGDEBURG, and of an unidentified artillery unit from BURG have been engaged in advanced combat practice firing in ALTENGRABOW since the middle of February 1951. Artillery components of the 1st Mecz Div from DOBERNITZ, the 9th and 12th Gds Tank Divs from NEUSTRELLITZ and NEURUPPIN respectively, and the 31st AAA Div from SCHOLLENWALDE were at ALTENGRABOW in March. Troops of the unidentified AT Arty Brig, possibly the 4th Gds, of the IV Arty Corps left JUTT-ROG aboard one train on 11 April, probably going to ALTENGRABOW. Elements of the unidentified AT Arty Brig, possibly the 3d Gds, from BRANDENBURG left for ALTENGRABOW on 3 April, while elements of the same brigade from BERNBURG moved to ALTENGRABOW between 16 and 19 April. The continuous movement of the brigades of the 6th Arty Div from the RATHENOW area and of the unidentified artillery division from POTSDAM to ALTENGRABOW began on 19 April and was not completed on 25 April.

- indicated that vehicles of the 7th Gds Tank Div, the 9th Mecz Div, and the 14th Gds Mecz Div were also at ALTENGRABOW in the middle of March.
- c. The BITTKAU engineer training site was still vacant in early April 1951. It had been used by engineer components of the GOFG and the Third Shock Army during the summer months of all previous years.
- d. A large-scale command post exercise, extending from the RATHENOW-BRANDENBURG area as far as the ALTENBURG area, was probably conducted during the second half of March 1951. The personnel involved, having from 200 to 300 motor vehicles, belonged to the Hq Second Gds Mecz Army from FUERSTENBERG; the 31st AAA Div from SCHOLLENWALDE; the Second Gds Mecz Army's mixed artillery brigade from ORANIENBURG; the Second Gds Mecz Army's signal regiment from RAVENSBERG; the 1st Mecz Div from DOBERNITZ; the 9th Gds Tank Div from NEUSTRELLITZ; the 12th Gds Tank Div from NEURUPPIN and DROEGEN; the 6th Gds Mecz Div from BERNAU; the 10th Gds Tank Div from KRAEPITZ; and the Fourth Gds Mecz Army headquarters units, probably the signal regiment, from EBERSWALDE. While most of these elements are believed to have left their posts by road, troops were observed returning to the FUERSTENBERG and BERNAU area from the areas of ALTENBURG, NORDHAUSEN and BERNBURG by rail during early April. A large-scale command post exercise, involving elements of all armies was also conducted in May and early June 1950, but was restricted to the HALLE-WEIMAR area. **

MVD Units.

8. The majority of the MVD units from battalions up were confirmed in their previous quarters until March 1951.
9. Some MVD units were issued black-bordered red epaulets in early April 1951. Substantiated reports on this new service color have been received from the Artillerie Kaserne in CHEMNITZ and the Reil Kaserne in HALLE. The troops in the two installations only received black-bordered red epaulets and apparently retained their equipment and armament. Troops with red-bordered green epaulets and a few soldiers wearing red epaulets were observed in BERLIN-GRUENAU. The purpose of this change of service color has not been determined.
10. In addition to the repeatedly confirmed MVD camp at the intersection of Regattastrasse and Bahnhofstrasse in BERLIN-GRUENAU, a restricted area was determined on the east side of Regattastrasse. It possibly contains the Hq MVD Troops in the Soviet Zone of Germany.

AUSTRIA.General.

11. The overall disposition of the Soviet ground forces in Austria remained constant until the beginning of April 1951.
12. The following units were confirmed in Austria by the evaluation of Soviet documents:
 - a. 23d AAA Div, with its 1064th AAA Regt, in the STOCKERAU-KORNEUBURG area until the spring of 1951. [REDACTED] are probably assigned to the headquarters or component units of the division. 25X1C
 - 25X1C The identification [REDACTED] of the division headquarters and the AAA regiment removes all previous doubts of whether the Central Group of Forces had still an AAA division or only an AAA regiment.
 - b. 284th Gds Mtz Rifle Regt, [REDACTED], of the 95th Gds Mtz Rifle Div in the BAD FISCHAU-WIENER NEUSTADT area until 14 March 1951. 25X1C
 - 25X1C [REDACTED] has always indicated the possibility that component units of the division are stationed in that area. *** This has now been confirmed [REDACTED] on a document from BAD FISCHAU. Elements of the regiment are probably assigned to guard duty along the zonal border. 25X1C

Training.

13. Following the arrival of small advance parties at DOELLERSHEIM and the APETLON AAA range in early March 1951, AAA units of the 23d AAA Div and the 95th Gds Mtz Rifle Div from the area north of VIENNA arrived at APETLON aboard three trains on 25 March, engaged in aiming practice, and left on 31 March. A train with tank troops, seen heading northwest on the railroad line from VIENNA on 22 April 1951, was probably bound for the DOELLERSHEIM troop training grounds. It may have carried a tank component of the 13th Gds Mecz Div. However, reports from the division billeting area, which covered the same period of time, did not contain any indications as to the imminent departure of the units for summer training at a troop training grounds.

HUNGARY.

14. The 17th Gds Mecz Div was confirmed in SZOMBATHELY, KOEREND, and KOESZEG in the border area of northwestern Hungary until the second half of March 1951. Unlike the units in Austria, the division started moving to a troop training grounds as early as March. Troops with tanks and vehicles were seen moving from SZOMBATHELY to HAYNASKER in mid-March, and troops loaded on two trains in KOEREND at the beginning of April probably moved to the same troop training grounds.
15. Units seen bivouacked in the KECSKEMET area at the beginning of April 1951 belonged, according to the vehicle numbers, to the 2d Gds Mecz Div which is carried in southeastern Hungary. *** The units allegedly established the camp as early as mid-March, indicating that summer training also started early in this area. The presence of Soviet tank units in KECSKEMET was again confirmed by refugees until the end of February 1951. Information stating that Soviet tank troops were also in the barracks installation in KISKUNTELEGYHAZA at that time requires confirmation because no troops were reported there in October 1950 and February 1951.

POLAND.

16. A refugee from LIEGNITZ confirmed the high command of Soviet troops in Polish-occupied Germany in LIEGNITZ until the end of February 1951. The headquarters, which was said to be headed by one General Litvinov, (fnu), was allegedly located on Dowestrassse. Most of the numerous barracks installations in LIEGNITZ quartered Soviet units which were probably directly assigned to the headquarters.

25X1X

RUMANIA.

17. [REDACTED] in TIMISOARA until the middle of April 1951, reported the following information. About 500 Soviet troops had remained in TIMISOARA from the end of the war to August 1950, when they departed westward. The quarters vacated were occupied by a larger number of Soviet troops who arrived from an easterly direction. A headquarters with three generals was located in the town, controlling all Soviet troops in the Banat. The troop quarters were occupied by tank and AAA units. No artillery pieces or rocket launchers were observed. The Soviet troops in the Banat were stationed in BUZIAS, LIPOVA, ARAD and, probably in the border towns of JIENDOLIA, OTELEC, DETA and BONTA. The troop situation in ARAD was similar to that which took place in TIMISOARA, i.e. troops left in August 1950 and were replaced by other troops coming from the east. A system of fire trenches with

dug-outs, echeloned in four lines, runs along the Rumanian-Yugoslav border. The source reported that the first line was occupied by Rumanian troops and the fourth line possibly by Soviet troops. Source both observed and had it on good authority that Soviet troops were stationed in CRAIOVA, BUCHAREST, and CONSTANTA. A Soviet headquarters was located in the Ambassador Hotel, BUCHAREST. The information obtained [REDACTED] confirms previous information from the Banat, stating that large-scale troop movements toward and across the Rumanian-Hungarian border, and to the Banat from the east, took place in 1950. The unit stationed in TIMISOARA and other posts in the Banat prior to the summer of 1950 may have been the 2d Gds Mech Div which is now carried in southeastern Hungary. The unit now located in the Banat has not been identified.

18. The following [REDACTED] known during World War II, were on documents which were received during the period covered by the report:

25X1C

- a. [REDACTED], which belonged to the 232d Gds Arty Regt of the 97th Gds Rifle Div in World War II. The regiment is located in SLAVUTA. Since a letter of February 1951 from SLAVUTA bore the [REDACTED] the 289th Gds Rifle Regt of the same division, it can now be fairly definitely stated that the 97th Gds Rifle Div is stationed in the KAMENETS-PODOLSK area, Carpathian MD. *

25X1A

25X1C

- b. [REDACTED], which belonged to the 9th Rifle Regt of the 67th Rifle Div in World War II. The division is a prewar unit, stationed in the LENINGRAD MD. It was almost exclusively employed on the Finnish Front during the war. It is conceivable that the 67th Rifle Div may now be stationed in the MURMANSK area.
